A launch event on Wednesday 12th September is planned, where the brand will be introducing its brand new phone an iPhone XS along with the specifications it will come with. The smartphone will have an edge-to-edge screen with almost a bezel-less screen. iPhone XS Camera will be an improvised version with a TrueDepth camera system that supports Face ID. Designed with most spectacular technology, the latest smartphone by Apple is undeniably the most awaited mobile of the year 2018. iPhone XS Price in India iPhone XS Price in India is expected to be approximately Rs. 93,000. The launch of iPhone XS will mark an official end to Home button and the Touch ID fingerprint sensor in Apple's flagship iPhone line-up. Apple presents the most elegant iPhone XS with better camera quality, efficient battery backup, remarkable speakers, water resistant and splash proof display and much more. iPhone XS Specifications Operating System and Performance: iPhone XS functions on the powerful A12 processor, improved LTE chips from Intel (OLED models only) that will support a faster LTE connection. It is power-driven by Hexa Core (2.35 GHz, Dual-core, Monsoon + 1.42 GHz, Quad core, Mistral) processor along with a RAM of 4 GB. This iPhone is expected to include an improvised USB-C to a lightning cable that ensures faster charging. Stunning iPhone XS Cameras - 13MP Plus 8MP Resolutions: One of the most awaited phones of the year 2018, iPhone XS has a rear-facing camera accompanies with a triple-lens array. This time Apple has improvised the rear zoom capacity and picture quality of iPhone XS camera in dim light environments. It is equipped with a 13 MP rear camera and 8 MP front-facing camera with retina flash for wonderful selfies, portrait pictures with an image resolution of 4128 x 3096 Pixels, and HD videos. Settings include exposure compensation, ISO control, Face detection, Touch to focus. There are Continues Shooting, High Dynamic Range (HDR) Modes as well in the smartphone that ensures a picture-perfect experience. Beautiful Display & Design with Eye Care Feature: Packed in a stunning curved design, the latest iPhone XS has a 5.8" (14.73 cm) LCD display with a screen resolution of 1125 x 2436 pixels. Boasting a sleek and rich design, iPhone XS is water resistant and dustproof with OLED Display having an aspect ratio of 18:9, and a pixel density of 463 PPI. Its 3D Touch ensures a much smoother & efficient functioning whilst instantly respond to even a subtle touch. The smartphone will be available in two marvellous colours i.e. Gold and Silver. Consistent Battery and Storage: Use More, Play more minus any uncertainties of the phone running out of battery. The all new iPhone XS comes with a non-removable Li-ion powerful battery of 2915 mAh capacity, which can proficiently last up to long hours on standard usage with quick charging. These days, storage has become a vital specification in a smartphone. The iPhone XS provides ample space to store all your data including high-definition photos, music, HD videos, applications, etc. Experience world in the palm of your hand with sufficient space in your smartphone. Apple iPhone XS Price in IndiaApple iPhone XS smartphone price in India is Rs 62,999. Apple iPhone XS was launched in the country on September 28, 2018 (Official).The smartphone comes in 2 other storage and RAM variants - Apple iPhone XS 256GB, Apple iPhone XS 512GB. As for the colour options, the Apple iPhone XS smartphone comes in Gold, Silver, Space Grey colours....Read moreother variantsApple iPhone XSApple-iPhone-XS-256GBApple-iPhone-XS-512GB Sun, Jun 20, 2021 | Updated 02.27AM ISTGadgets NowVideos Reviews UnboxingApple iPhone 12 mini: First look Gadgets Now Updated: 14 Dec, 2020, 11:05PM ISTOut of the all four iPhones launched in 2020, the iPhone 12 mini is the smallest. Featuring a 5.4-inch OLED display, the iPhone 12 mini is a compact phone. Powered by A14 bionic processor, iPhone 12 has a dual camera setup at the back of 12MP sensors. Starting at Rs 69900, iPhone 12 mini is the most affordable new iPhone... Read MoreLoad More VideosCopyright © 2021 Bennett, Coleman & Co. Ltd. All rights reserved The Times of India. For reprint rights: Times Syndication Service Most of us use emoji on our iPhone, but until recently finding the right one has been tricky. Luckily, starting in iOS 14, you can now search for emoji directly within the Emoji keyboard in any app on an iPhone. Here's how. First, open the app you'd like to type an emoji into. Tap any text-input area, and when the on-screen keyboard appears, tap the emoji keyboard button. (If you don't see the emoji button in your on-screen keyboard, that means the emoji keyboard has been deactivated in Settings. To get it back, navigate to Settings > General > Keyboard > Keyboards. Tap "Add New Keyboard." Select, "Emoji.") When the emoji keyboard pops up, tap the "Search Emoji" text input area. If you don't see the "Search Emoji" area, you'll need to update your iPhone to iOS 14 or later first. RELATED: How to Update Your iPhone to the Latest iOS Version Type in a word that describes the emoji you're looking for, and you will see potential matches displayed horizontally in an area just under the search box. And you can select by category as well. For example, typing "fire" will bring up the flame emoji, a fireball, a firetruck, and more. If you type in a word with a large number of potential matches (such as "animal" in this example), you can scroll through them by sliding your finger to the left or right along the search result bar. As you swipe, more emoji will be revealed. When you locate the emoji you'd like to use, tap it, and it will be inserted into the app you're using. As of this writing, this technique only works on iPhone, but the emoji search bar may come to iPad soon in a future update. For now, if you'd like to search for emoji on your iPad, you'll have to use the older "predictive text" technique. Apple's iPhone 5 page has gone live, along with all of its full specifications. Let's see if we can find a few surprises that weren't in announcement...
