...differences under the constitutional protection of aboriginal rights in Canada. Tellingly, however, the author describes the restrictions imposed on aboriginal groups as a set back to one aboriginal group's efforts to gain full ownership of its heritage. Based on the number of test cases, it is clear that aboriginal groups have experienced a set back in their efforts to secure greater rights to their lands and resources.

In the second paragraph, the author also discusses the right of self-government and the recognition of aboriginal languages. The author states that the constitutional protection of aboriginal rights is to recognize only long-standing traditions and customs. Any customs that seek to protect long-standing traditions and customs must be considered legitimate. The author concludes that the language of the Canadian constitution should be revised or rewritten. Based on the number of test cases, it is clear that the author believes Lichtenstein's work transcended "mere parody."
how to find the missing side length of a right triangle using trigonometry
