9.09.2019 - 1. There is an offline installer available from the install link - choose Other options, but you need internet access to activate it. Microsoft has said you will need to confirm the license every 30 days, which is a change from previous versions of the retail versions. 2/3. 9.02.2015 - Cumulative Update 4 for ConfigMgr 2012 R2 was just released. If you download the hotfix file, you can use an app like 7-zip to extract the exes and msi file to eventually get to the full scepinstall.exe installer for version 4.6.305. As Jason said, it's not a free product, so you should only do this if you are properly licensed. Open cmd.exe as administrator and go to the directory where web installer is stored; Copy and Paste to Run the following command: vs_WDEExpress.exe -layout "C:\VSEExpress2017" Allow it to download all of the files it needs, it will be around 4.5 GB of downloading
