For permanent links you can use: <https://ezgif.com/gif-to-apng?url=> Output Apng Image: Convert Animated Gif to Animated PNG (APNG) With a click. Keep in mind, while APNG supports a much greater number of colors and an alpha channel, easily convert the GIF to APNG will not give you quality improvements over the original GIF (but could reduce the file size in some cases). You will need to recreate animation from images or video source to take advantage of all the advantages of the APNG. Notice: Animated PNG is not yet supported by all major browsers. A currently supported by Firefox, Google Chrome, Opera and Safari. You can find more information about the current status of the APNG media in different browsers on [apng for permanent links you can use](https://ezgif.com/video-to-apng?url=) : <https://ezgif.com/video-to-apng?url=> Output APNG Animation: (video conversion can last a little, especially for animations with high installments and Resolution) This tool converts selected part of the video file to animated PNG. It can also be used to convert video in sequence of PNG images. For this, select the "NOT ANIMATION, ENTER a sequence of PNG images" check box. Notice: PNG animated is not currently supported by all web browsers. Furthermore, it is not intended as a video replacement and video conversion file in APNG produces large files that most likely are not optimal for use on sites Web. Consider this experimental characteristic. You should probably use the video tool on GIF to produce animated images if you don't know why you're here. If you want to extract a sequence of single PNG images instead of the APNG animation, you can instead use our PNG PNG converter video.
