A stoc yrdnoceSsection contains the data that are valid for all the company codes. The fields are listed below in section b of the Accounts Charter section. Company Code Section The Company Code section contains the data that are valid for a specific company code. The code section of the company extends to the company code on the basis of necessity. Control Data Tab has the following fields in the "Createbankinterest" section of the Company Code Section: Since the same GL is used by multiple company codes that may be located in different countries that may have a different language; to address such scenarios you can maintain a different description in different languages under the 'Key Word/Translation' tab. # Gestione GL Account Master Data Fiori App Screen Overview You can use this application to search, create, display and edit the master data of the GL accounts. You can also easily add new GL accounts from zero or based on existing accounts. Depending on the paper to which you are assigned, you can perform the following tasks: Find GL accounts Show GL account master data Create GL account from scratch Create GL account based on the existing GL account Edit GL account teachers assign GL account assign GL account counts to company codes
