Super M released their first EP on Oct.4. After SuperM release: The 1st Mini Album, SuperM performed their first concert in Los Angeles and participated in high-profile interviews. In interviews, the group discussed their hope for SuperM and music as a whole. SuperM | Rich Polk/Getty Images for Capitol Music Group Super M wanted to release music that fits the US market The main single for SuperM's debut album is "Jopping". The word "Jopping" is a combination of "jumping" and "popping". It is an optimistic track that incorporates different musical genres. The music video for "Jopping" shows an impressive choreography, which some of SuperM members have shown on The Ellen DeGeneres Show. "Now that we are entering the American market, we could have released a song that fits the American taste better, but that's not what distinguishes us as a group," said SuperM Kai in an interview with Refinery29. "We chose "Jopping" because we wanted to show something that was not done in the United States. Moreover, since we have gathered all these great members for this kind of performance, we have seen a potential in this song to fascinate the world and show our identity," he said. Super M embraces their Asian identity with the album While "Jopping" is the main single, there are four more tracks on the EP. "I can't resist the rain" presents all seven members while members perform in different units for "Super Car", "2 Fast", and "No Manners". Taemin is the only member to appear on all five songs. "Super Car" is performed by Taemin, Baekhyun, Ten, Taeyong and Mark. Taemin, Baekhyun, Mark and Lucas perform "2 Fast." "No Manners" is performed by Taemin, Taeyong, Kai and Ten. Taeyong also wrote credits for the lyrics and music for "No Manners". Fans noted that EP songs are very similarthose performed by the original groups of members, members.EXO, NCT and WayV. Among all the songs, "I Can't Stand the Rain" has a very distinctive sound. The song incorporates traditional Korean drums and a haegeum melody. "We are from Asia. We wanted to emphasize the harmony between Western and Asian music. That's why the drums and the hegeus are on that western beat," Baekhyun said in Refinery29's interview. The band hopes that their album will show the U.S. unlimited potential of K-pop While other groups have found success in the U.S., SuperM wants to leave its mark on the music industry. With the formation of their band and album, SuperM hopes to show the unlimited possibility of K-pop. "With '2 Fast', the sudden change within the track is very K-pop because K-pop itself changes continuously. There is no limitation and takes on many different forms. This song is just another representation of this, and as we try to differentiate ourselves," Baekhyun said. Super M hopes to bring an understanding and appreciation of Korean culture and K-pop in America. "K-pop is not just a musical genre, but an entire cultural phenomenon. It includes fashion, music, and much more. When other people look at K-pop with a more traditional western lens, or when people listen to it, it may seem like a combination of all different genres," Taemin said Refinery29. "Although it might seem unknown at first, I think it's in the fusion process in the mix of American culture. Hopefully, Super M can also make a contribution."
