Sixty high-yield Emergency Medicine cases helps students sharpen their diagnostic and problem-solving skills The Case Files series is an award-winning learning system proven to improve shelf-exam scores and clerkship performance. Unlike other books on the market, this series helps students learn in the context of real patients instead of simply memorizing. Case Files Emergency Medicine teaches students how to improve their diagnostic and problem-solving skills as they work through sixty high-yield clinical cases. Each case includes a complete discussion, clinical pearls, references, and USMLE-style review questions with answers. • NEW Case Correlations feature which highlights differential diagnosis and related cases in the book; 25 challenge questions that span the content of the entire book • Updated to reflect the most current high-yield clerkship topics and the latest in medical management and treatment Introduction Listing of Cases Section I How to Approach Clinical Problems Part 1. Approach to the Patient Part 2. Approach to Clinical Problem-Solving Part 3.
